You will be sent an e-mail or fax confirming your registration and as receipt of payment.

Cancellations:

Registration fee, less a \$50 administration fee per session, is refunded if notice of cancellation is received more than 10 days in advance of the course or workshop. Cancellations made less than 10 days in advance of the course or workshop date forfeit the entire tuition fee. Tuition can be transferred to another individual or another course or workshop, one time only. No transfer, refund or credit will be given for cancellation 3 days or less before the workshop or course, or when handouts or other course materials are available electronically, including but not limited to emailed or downloadable pdf documents.

Rehab Connections reserves the right to cancel the course or workshop up to one week prior to the course. Rehab Connections will not be responsible for any charges incurred by the registrant due to the cancellation of the course, other than the course tuition.

Saturday, December 13, 2014

Registration: 7:00 a.m.- 8:00 a.m.

Course: 8:00 a.m.-3:00 p.m.

LUNCH IS ON YOUR OWN

Hamburger University

McDonald's Office Campus

2715 Jorie Boulevard, Oak Brook, IL
630-623-7845

Topics

Update on Parkinson's Disease

- Incidence, etiology, and natural history of the disease
- Medical management emphasizing pharmacological interventions and Deep Brain Stimulation
- Current research
- Evidence-based practice guidelines

Lateral Epicondylitis: Where's the science?

- Epidemiology and pathophysiology
- Physical examination, diagnostic studies, and classic symptoms
- Non-surgical, conservative treatment options
- Minimally invasive and open surgical procedures for debriding and tendon repair
- Outcomes of past and present treatment
- Evidence based medicine for treatments currently available
- Rehab protocols or guidelines including phased restrictions for sports and work activities

Cervical Spine Degenerative Disease

- Incidence and etiology
- Conservative and surgical management
- Possible complications following surgery or other procedures
- Medical and rehabilitation protocols
- Current research
- Evidence-based practice guidelines or resources for rehabilitation professionals

Update on Lumbar Spine Surgical Procedures

- Key physical exam findings and imaging
- Conservative management of lumbar radiculopathy
- Indications for fusions
- Surgical interventions for lumbar stenosis and spondylolisthesis, including ALIF, TLIF, PLIF, XLIF
- Post-operative rehab protocols or guidelines, and restrictions during ADL, work, or therapy
- Keys to successful outcomes after lumbar spinal surgery
- Update on use of osteobiologic agents and motion preservation devices in spinal surgery

Orthopaedic Management of Shoulder Pathology: Rotator Cuff Disease

- Spectrum of pathology
- Classification and pathogenesis of rotator cuff tears
- Key physical exam findings and imaging
- Nonsurgical management
- Surgical treatment
- Keys to successful outcomes after rotator cuff surgery
- Post-operative rehab protocols or guidelines, and restrictions during ADL, work, or therapy

Course Objectives

This program will enable you to:

- 1 Compare and contrast different surgical approaches/techniques presented
- 2 Discuss implications for rehabilitation related to the surgical and medical interventions presented
- 3 Recognize signs and symptoms of complications necessitating contact with the physician's office
- 4 Participate in multiple Q & A segments with a variety of specialists and surgeons.
- 5 Utilize evidence and new resources for your treatment planning.

NEW! If handouts are provided by our speakers in advance, you will receive your handout links by email 2-3 days prior to the forum. If not, and speakers give us permission to distribute their presentations, links to those handouts will be emailed following this forum. Handouts you can download now give you the opportunity to preview, print, save, and refer back to the information at any time.
